Accordingly, customers' loans are determined to be in the highest risk group of the classification under Circular 31 and customers' highest debt group at credit institutions provided by the Credit Information Center ("CIC") of the SBV at the time of loan classification.

The bank maintains the debt group for certain loans in accordance with the regulations in Circular No. 02/2023/TT-NHNN ('Circular 02') dated 23 April 2023, Circular No. 06/2024/TT-NHNN ('Circular 06') dated 18 June 2024, and Circular No. 53/2024/TT-NHNN ('Circular 53') dated 4 December 2024, of the State Bank of Vietnam, which stipulates that credit institutions and branches of foreign banks restructure payment terms and maintain the debt group to support customers in difficulty, as well as the documents from the State Bank of Vietnam regarding debt classification and risk provisioning

Loans are classified by risk level into: Standard, Special-mentioned, Sub-standard, Doubtful and Loss. Loans classified as either Sub-standard, Doubtful or Loss are considered as bad debts.

Net credit risk exposure for each item is calculated by subtracting from the outstanding loan balance the discounted value of collateral which is subject to discount rates in accordance with Decree 86. The specific provision is made based on the net credit risk exposure of each item using the prescribed provision rates as follows:

| Group | Category          | Provision rate |
|-------|-------------------|----------------|
| 1     | Standard          | 0%             |
| 2     | Special-mentioned | 5%             |
| 3     | Sub-standard      | 20%            |
| 4     | Doubtful          | 50%            |
| 5     | Loss              | 100%           |

According to Circular 02 and Circular 53, the Bank is required to make specific provision for debts to customers whose repayment terms are rescheduled as prescribed in this Circular as follows:

- Circular 02:
  - Up to 31 December 2023: by at least 50% of the specific provision to be additionally made
  - Up to 31 December 2024: 100% of the specific provision to be additionally made.
- Circular 53:
  - Up to 31 December 2024: by at least 35% of the specific provision to be additionally made
  - Up to 31 December 2025: by at least 75% of the specific provision to be additionally made
  - Up to 31 December 2026: 100% of the specific provision to be additionally made.

Following Decree 86, a general provision is made for credit losses that are yet to be identified during the loan classification and specific provisioning process as well as in cases where the credit institutions encounter potential financial difficulties due to the deterioration in loan quality. Accordingly, the Bank is required to make and maintain a general provision at 0.75% of the total outstanding loan balances which are classified into groups 1 to 4, excluding deposits at domestic credit institutions and foreign bank branches as prescribed by law and deposits at overseas credit institutions; loans and forward purchase of valuable papers among credit institutions and foreign bank branches in Vietnam; purchases of certificates of deposit or bonds issued locally by other credit institutions and foreign bank branches; and repurchase agreements of Government bonds on the stock market in accordance with the legal regulations on issuance, registration, depository listing and trading of government debt instruments in the stock market and other debts arising between credit institutions and foreign bank branches in Vietnam in accordance with the provisions of law.

#### ***Write-off of bad debts***

In accordance with Decree 86, the Bank must set up Risk Settlement Committee to write-off bad debts if they are classified as Group 5, or if borrowers are either liquidated or bankrupted legal entities or deceased or missing individuals.

**Investments**

***Trading securities***

Trading securities are debt securities that the Bank has bought and had the intention to sell in the near future to gain benefits from price differences. Trading securities are recorded at cost at the transaction date and subsequently recorded at cost during the holding period. Interest earned during the holding period of trading securities is recorded on cash basis in the separate income statement.

These securities are subject to impairment review at the date of the separate financial statements. Provisions for securities that are stipulated in the scope of Circular 31 are made in accordance with Decree 86 (as described in the summary of significant accounting policies for "Provision for credit risks"). Provisions for impairment of securities that are not stipulated in the scope of Circular 31 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Provision for impairment is recorded in the separate income statement as "Net gain/(loss) from trading securities".

***Investment securities***

***Available-for-sale investment securities***

Available-for-sale investment securities include debt and equity securities that the Bank holds less than 11% of voting rights for investment and ready-for-sale purposes. These securities are not frequently traded but can be sold at anytime once they are profitable, and the Bank is neither the founding shareholder/strategic partner nor capable of controlling, to some extent, the process of initiating and approving financial and operating policies of the investees, which is evidenced by a written agreement on delegating personnel for representation in the Board of Directors/Board of Management.

Available-for-sale equity securities are recognized at cost at the transaction date and subsequently recognized at cost during the holding period.

Available-for-sale debt securities are initially recognized at par value at the transaction date. Accrued interest before the acquisition date (for debt securities with interest payment in arrears) or interest income received upfront awaiting amortisation (for debt securities with interest payment in advance) is recorded in a separate account. Any discount or premium, which is the difference between the cost and the amount equal to par value plus (+) accrued interest before the acquisition date (if any) or minus (-) interest received upfront awaiting amortisation (if any), is also recorded in a separate account.

Periodically, available-for-sale investment securities are subject to impairment review. Provision for securities that are stipulated in the scope of Circular 31 are made in accordance with Decree 86 (as described in the summary of significant accounting policies for "Provision for credit risks"). Provision for impairment of securities that are not stipulated in the scope of Circular 11 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. Held-to-maturity investment securities are debt securities that the Bank purchases for investment purpose to gain interest and the Bank has the intention and the capacity to hold the securities until maturity. Held-to-maturity securities have determinable value and fixed maturity dates. In case of being

sold before maturity, they will be reclassified as trading or available-for-sale securities. Held-to-maturity investment securities are recognized similarly to available-for-sale debt securities.

Periodically, held-to-maturity investment securities are subject to impairment review. Provision for securities that are stipulated in the scope of Circular 11 are made in accordance with Circular 11 (as described in the summary of significant accounting policies for "Provision for credit risks"). Provision for impairment of securities that are not stipulated in the scope of Circular 11 are made when their carrying values are higher than their market values determined in accordance with prevailing accounting regulations. In special cases or in case a large number of securities has to be reclassified (greater than or equal to 50% of total value of the portfolio), the Bank will disclose the effect of reclassification on total assets, liabilities, equity, income and expenses of the Bank in the separate financial statements.

#### *Other long-term investments*

Other long-term investments represent the Bank's capital investments in other enterprises at which the Bank either owns less than 11% of the voting rights or is a founding shareholder; or a strategic partner; or is capable of controlling, to some extent, the process of initiating and approving financial and operating policies of the investees, which is evidenced by a written agreement on delegating personnel for representation in the Board of Directors/Board of Management. The investments are initially recognized at cost at the transaction date and always carried at that cost during the subsequent holding period.

#### *Provision for impairment of capital contribution, long-term investments*

Provision for impairment of investments in capital contribution and long-term investments are made when the investee is operating at loss in accordance with prevailing accounting regulations.

Provision for impairment of capital contribution and long-term investments are recognized as an operating expense in the separate income statement. In case an investment is made in listed shares or the fair value of an investment is reliably determined, the provision is made based on the market value of the stock (similar to the provision for impairment of available-for-sale investment securities).

#### *Recognition*

The Bank recognizes investment in securities and other investments at the date when the Bank performs the contractual terms (transaction-date based policy). Investment in securities and other investments are initially recognized at cost. After initial recognition, investment in securities and other investments are recognized under the above-mentioned accounting policies.

Rights and obligations of the trustor and trustee relating to profit and profit sharing, trust fee, other rights and obligations are in compliance with the terms of the signed contracts. The assets that are held under custody services are not considered as assets of the Bank and therefore, they are not recognized in the separate financial statements of the Bank.

When intangible assets are sold or disposed, their cost and accumulated amortisation are written off and any gains or losses resulting from their disposals are recorded in the separate income statement.

**Leasing**

A lease is classified as a finance lease when significant rights and risks relating to ownership of the leased item are transferred to the lessee. All leases other than finance leases are classified as operating leases.

A lease is considered as an operating lease when the lessor still enjoys many of the benefits and is subject to the risk of ownership of the property. The value of the operating leased property is not recognized on the separate statement of financial position. Rentals under operating leases are recorded in "Operating Expenses" on a straight-line basis over in the lease term.

**Depreciation and amortization**

Depreciation and amortization of tangible fixed assets and intangible assets are calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

**Prepayments**

Prepayments include actual expenses that have arisen but are related to the results of business activities of many accounting periods. Prepayments comprise prepaid office rentals and other prepaid expenses.

Office rentals represent the amounts which have been paid in advance. Prepaid office rental is charged to the separate income statement using the straight-line method over the rental period.

Other prepayments include repair, maintenance costs for assets, costs of tools and supplies issued for consumption and other prepaid expenses, which are expected to provide future economic benefits to the Bank. These expenses are capitalized as prepayments and are allocated to the separate income statement using the straight-line method over the period of three years or less in accordance with prevailing accounting regulations.

**Receivables**

Receivables other than those from credit activities in the Bank's operation are initially recognized at cost and subsequently recorded at cost. Other receivables are subject to impairment review based on the overdue status or based on the expected loss for the following cases: institutional debtors who have fallen into bankruptcy or have been in the process of dissolution; or individual debtors who are missing, escaping, prosecuted, on trial or passed away even though receivables are not overdue. Provision expense incurred is recorded as "Operating expenses" in the separate income statement during the period.
